A. "Good Deeds" Radio Experience

My experience on the "Good Deeds" radio show was unlike any other. I've completed many radio and live interviews, but what makes "Good Deeds" different is this is the first show where I felt comfortable to share things I haven't shared before. The Host was energetic and captivating enough pull me into a comfortable place to share. As I shared, I also rechecked as she elaborated on the topic at hand. It was a memorabilia experience.

Sincerely, Author T.K.War
